OUR WASHINGTON LETTER.

WASHINGTON, D. C., Aug. 19, 1880. From reports received here it is eviat all encouraging to the Democrats. For the trouble they are in they have to thank Mr. Hendricks. He induced the Supreme Court of the State to declare unconstitutional the amendment changing the election day from October to November after it had been adopted by a popular majority of 50,000 votes. The decision was made during the Democratic National Convention, and was, in fact, a shrewd dodge to force the so high up among the Sierras that the convention to put

HENDRICES by applying to their Supreme Court to reopen the amendment case. The apthe amendment has been affirmed, and no other grounds, can generally rely upon Democratic blunders and mismanagement, for success. The blunder in Indiana is the most damaging of the campaign. But it is now evident that harmony is impossible and Republicans will desire the same aid from Democratic quarrels as in former camhas a cable dispatch from Vanderbilt, paigns. There exist in New York, Virginia, Tennessee, and Indiana the same quarrels that so alarmed the party previous to Hancock's nomination. That lists are being made of all who, at the present time, hold Confederate bonds; that in fact, there is being quietly carried on a search in all the ex-Confederate States for persons holding these worthless securities, the number held by each person, and the amounts. Since the war closed these bonds have been kept in the back ground, but the holders have never for a moment ceased to believe that they would some day, acquire an equal value with the United States securities. There is but one conclusion to be arrived at from a knowledge of these facts, and it is that if Hancock be elected a determined effort will be made to refund from the United States Treasury the entire value of these unlawful portbless claims on file in the Treasury

And yet, at this great elevation, nature has made it rich in contributions to the pleasure and well-being of man. About the head of the valley, or divide between it and Genesee Valley, is the source of Grizzly creek, a stream that meanders through the length of the valley, giving rise to abundance of the most nutritious grasses, such as red and white clover, wild timothy, bunch grass, etc., spread all over the lower portion of the valley in wild and rich profusion, thus making it one of the finest dairying sections in the mountains. There are no persons resident in the valley, but there are some nine or ten persons who own dairy ranches therein, and who go there in the Summer with their cows, and carry on large dairies from plication has been, or is about to be about the 1st of June to the latter part granted, and in all probability we shall of October, four or five months in the soon hear that the constitutionality of year. ORGANIZED FOR WORK.

The California State Central Committee of the Republican party met in San Francisco Wednesday afternoon, pursuant to call, at party headquarters. Sixty-two members were present out of seventy-nine, and every county in the State was represented, either by its member or proxy. On account of the number present the Committee adjourned to the spacious hall of the Republican League, on California street. The resignation of W. W. Morrow was declined unanimously, and he was retained as Chairmen. P. B. Cornwall was chosen Vice Chairman. The acts of the Executive Committee, in the matter of the reorganization of that Committee, were ratified and affirmed. The Committee, as finally reorganized, is as follows: W. W. Morrow, Chairman; D. B. Jackson, C. F. Bassett, David Mush, Jacob S. Tabar, Richard Chute, John A. Bauer, F. B. Reynolds, W. W. Traylor, P. B. Cornwall, McF. Davis and A. P. Williams, all of San Francisco; J. R. Hardenberg, of Alameds, W. H. Lawrence, of San

Mateo, and F. C. Frank, of Santa Clara. Resolutions were adopted thanking the retiring members and also complimenting the late Secretary Boruck for his official record. Mr. Morrow rose to an explanation in behalf of Frank Pixley, to the effect that everything was satisfactorily settled, and there would be no more back talk and that work for the ticket should be rigorously prosecuted. The best of feeling was manifested at the meeting and an active campaign will be at once commenced. With regard to the San Francisco correspondence of the New York Herald, to the effect that the Republicans in California were neglecting the Electoral ticket with the view of laying out their strength on the Senatorial fight, the State Central Committee passed a resolution contradicting the statement as untrue and not representing the opinions or actions of any leading Republicans, and claiming that California will cast its six votes for Garfield and Arthur and elect a major ity of the Legislature and the four mem

Delegates.

It is the general opinion among Republicans that no candidate should be a delegate to the County Convention, and as the meeting this evening will probably select the Reno delegation, we think that as good a plan as any would be to take fifty or seventy-five names, put them in a hat and draw out the 27. We append a list of names of representative men of the party from which it will not be a difficult matter to choose 27 good men:

C. C. Chase. J. C. Smith, A. H. Barnes, A. H. Manning, S. M. Jamison, C. T. Bender, Nels Hammond, Frank Bell. R. Nash, W. H. Caughlin, Jack Frazier, G. H. Fogg, W. L. Bechtel, A. C. Blakely, Robt. Ash. Dr. Bishop, G. W. Cunningham, H. W. Higgins, I. B. Marshall,

A Healthy Corpse.

E. C. McKenney,

A. J. Hatch.

In one of the big battles of the rebellion, Gettysburg, we believe, Hon. C. N. Harris, Register of the Land Office at Carson, was severely wounded and left on the field for dead. His death was reported to the "old folks at home" and services were held in commemoration of his decease. Harris was picked up and the spark of life that still flickered was fanned into a flame and he recovered so that in a few months after his funeral sermon had been preached he was able to travel, which he did toward home, arriving there as one from the dead. Rev. Mr. Crary, the clergyman who officiated at that funeral, is now editor of the California Christian Advocate of San Francisco, and recalling the reminiscence, publishes it in a late number of his paper and calls upon his resurrected corpse to report at headquarters to explain why he acted so peculiarly as not to stay dead when he "officially planted." To see the Judge now in all the glory of his six feet three, one would hardly suppose he had ever been guilty of having a funeral service held over him.

Resolutions Adopted by the Republican State Convention:

Resolutions Adepted by the Republican of principles adopted by the National Republican Convention at Chicago in June deserves and receives the approval and hearty endorsement of all Republicans of Newada.

Resolved. That the hordes of Chinese that are coming in upon our country, impowerishing our mines, miners and laborers, debauching our youth and making both men and women lower in the scalo of humanity. This evil must and shall be stopped, and to this end we pledge the entile strength of the Republican party. In the language of our great leader, we regard the inmigration of Asiatics to the United States as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese to vernment fait to scenne by the first of next January such a modification of the Hurlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will releve us at once and forever of the Asiatic scourge now menacing the well being of the Republic.

Resolved. That we most heartly indorse the general financial policy of the Republic.

Resolved. That we most heartly indorse the general financial policy of the Republic on the part of the Democracy, has led to the resumption of specie payments, the raising of our National credit to a beight never before known, and the restoration of National prosperity. But we also demand the complete restoration of silver coin to its former position by the side of gold, and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at he cost of coinge and for the benefit of the producer, the entire produce of the country, and relieves the mining industry of Newada. We are inflexibly opposed to the bilir reported by the Committee on Mines and Mining and now before the House of Representatives. MATTONAL REPUBLICAN PLATFORM.

THE FOLLOWING IS THE PLATFORM of the National Republican Farty adopted by

the Chicago Convention;

the Chicago Convention:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent. bonds and at 86, to that where four per cent. bonds are eastly sought at a premium Under its administration railways bave increased from 31,000 miles in 1865 to more than 82,000 miles in 1879. Our foreign to ade has increased from 3700,000,000 to \$1,150,000,000 in the same time, and our exports, which were \$20,000,000 less than our imports in 1879. Without resorting to loans, it has, since the war closed, defrayed the ordinary expenses of Government, beside the accruing interest on the public debt, and dis bused annually more than \$30,000,000 for soldiers' pension. It has paid \$890,000 for soldiers' pension. It has paid \$890,000 of the public debt, and by refunding the balance at lower rates has reduced the annual interest charge from nearly \$151,000,000 to less than \$39,000.000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed Upon this record the Ropublican party abs for the continued condicance and support of the people, and this Convention submits for their approval the following statements of the principle and purpose which will continue to guide and inspire its efforts:

THE REPUBLICAN POLICY.

THE REPUBLICAN POLICY.

First—We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the dissevered Union, now happily restored, should be perpetuated, and that the libertles secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should be ver be imperiled. That the pensions promised should be paid. That the debt so muce reduced should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

A NATION, NOT A CONFEDERACY.

A NATION, NOT A CONFEDERACY. Second—The Constitution of the United States is the supreme law, and net a mere contract. Out of the confederated States it made a sorreign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by National and not by State tribunals.

POPULAR REMUGATION.

Third—The work of popular education is one left to the care of the several States, but it is the duty of the National Government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genus of any one State, but by the average genius of all.

PROPOSED CONSTITUTIONAL AMENDMENT. PROPOSED CONSTITUTIONAL AMENDMENT.

Fourth—The Constitution wisely forbids Congress to make any law respecting an establishment of religion, but it is alle to hope that the nation can be protected against the influence of sectarianism, while each State is exposed to its particular domination. We therefore recommend that the Constitution be so amended as to isy some prohibitions upon the legislature of each State, and to forbid the appropriation of the public funds to the support of sectarian schools.

DUTTES OF THE DAY.

DUTIES OF THE DAY.

Putter of the Day.

Putter of the Day.

Putter of the purpose of revenues should so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation. That sixvery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American 1 inthe must be secured to citizens by American adoption. That it is the duty of Congress to develop and improve our watercourses and harbors, but we insist that further subsidies to private persons or corporations must case. That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

American people.

THE CHINESE PLANE.

THE CHINESE PLANE.

Sixth—Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and its treaty making powers, that the kepublican party, reparding the unrestricted immigration of Chinese as an evit of great magnitude, invokes the exercise of the power to restrain and himit that immigration because the cause of the power to restrain and himit that immigration because the cause of the provisions as will produce that result, and the commentation of HAYES.

COMMENDATION OF HAYES.

COMMENDATION OF HAYES.

Secondar-That the purity and patriotism which characterizes the earlier career of Rutherford B. Hayes in peace and war, and which guided the thought of hie immediate predecessor to hum for a Presidential candidate, have continued to inspire him in his career as thief Executive, and than instory will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will know his interposition between the people and proposed partison laws.

people and proposed partism laws.

ABRAIGNMENT OF THE DEMOCRACY.

Eight—We charge up n the Democratic party the habitual sacrince of patriotism and justice to a supreme and toosatiable list for office and patringe, that to obtain possession of the National and State governments, and the outrol of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of sunitage; have devised fraudient certificates and returned have labored to unsent lawfully elected members of Congress, to secure at all bazards the voic of the majority of the States in the thruse of Representatives; have an deavored to occupy by forbe and fraud places of trust given to others by the people of Maine, and re-sed by the courage and action of Maines, and re-sed by the courage and action of Maines, and re-sed by the courage and action of Maines, and re-sed by the courage and action of Maines, and re-sed by the courage and action of Maines, and re-sed by the sunity principal particular principles and sought the favor of rebellioning ones the maion; and have endeavored to obstreas the secret memories of the war, and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use and the principal purpose of the Republican party to necessarily the first three to the practical, sensible people of the United States to say whether it would not be dangerous to the best interest of our country at this time to surrender the administration of the National Garachies shield shield of the United States to say whether it would not be dangerous to the best interest of our country at this time to surrender the administration of the National Garachies shield shi ARRAIGNMENT OF THE DEMOCRACY. of the United States so an except of our country be tangerous to the best interest of our country at this time to surrender the administration of the National Government of his party which seeks to overthrow the existing follow under which we are so presperous, and thus bring destrain-tion and confusion where there is now order, confidence and hope.

tion and common where there is now order, contidence and hope.

Afrak—The equa, and steady, and complete enforcement of the laws, and the protection of all our citaces in the enjoyment of all privileges and imministy guaranteed by the Constitution, are the first dilice of the insten.

Penk—The daugers of a "solid stouth" can only no sverted by a faithful performance of every priorise which the listing hist made to the citage.
